Please prepare the following tools

Tips: The number after "+" represents the spare hardware.

IMPORTANT NOTES:

The item you are purchasing is a large furniture product that requires a large number of components to assemble.

Please take all parts boxes out of the packaging and place them in order. So that you can follow the steps in the installation manual to find the corresponding parts box and quantity of need when installing. Please do not take too many parts to prevent the parts from scattering.

Please be patient and follow the instructions step by step for installation. If you have any problems during the installation process, you can ask our customer service to help you solve them!

SAFETY TIPS:

Static charge may cause dust on foam – clean with a dry or damp cloth.
Small foam strands may be present – handle gently and dispose of properly.
Do not burn or incinerate. Check local recycling guidelines.

Loosen the screws to move the magnetic catch forward or backward, ensuring the top and bottom catches are vertical for the best magnetic force on the door panel.

 You can adjust the level of the cabinet by using the adjustable feet at the bottom of the furniture to make the gaps between the cabinet door boards even. During the adjustment process, you should first place the furniture in the position where it is needed. Otherwise, when you move it to that position after adjustment, you may encounter an uneven floor.

Warning: If you overturn the furniture, it may cause serious or fatal crushing injuries. We have a wall connection device attached, please use it to hold the furniture following these instructions.

1. Mark the corresponding hole positions where you want to place the furniture;
2. Use a impact drill to drill holes and pay attention to avoid wires and water pipes;
3. Knock the expansion pipes into the wall holes;
4. Place the furniture in the corresponding position and tighten the wall connection device with screws.

Place sticker (C) on the hole.
